PROFILE

Certified Webflow Developer and Google UX Designer with 7+ years of experience creating high-performing, responsive websites and intuitive digital products across web and mobile. I combine strong UI/UX design skills with deep Webflow development expertise to deliver visually engaging, scalable solutions. Proficient in HTML, CSS, JavaScript, and technical SEO, with a focus on performance, accessibility, and seamless user experience. Experienced in leveraging AI tools to accelerate design, optimize development workflows, and enhance creativity. Highly collaborative yet capable of working independently to translate business goals into impactful digital experiences.

PROFESSIONAL EXPERIENCE

Altras international LTD

01/2024 – Present

Senior UI/UX designer

Dubai, UAE

- Worked on the integration of product management and user analytics tools.
- Collaborated with stakeholders to define and prioritize user stories, feature requests and user interface requirements.
- Employed design thinking methodologies to analyze user needs and pain points, translating them into actionable design requirements and specifications.
- Designed high-fidelity mock-ups and interactive prototypes using Figma to ensure user satisfaction and improve user experience.
- Implemented a scalable design system to ensure visual and functional consistency across all product interfaces, improving design efficiency and cross-team collaboration.
- Collaborating with different departments, like legal, compliance and development to ensure GDPR compliance and better protect users.
- Developed and maintained the company website using Webflow.

Cyber Elements Technology

Interfaces (UI) for Websites**

**Design a User Experience for
Social Good & Prepare for
Jobs**

Mar 5, 2025

almigdad aldoma

has successfully completed the online, non-credit Professional
Certificate

Google UX Design

Those who earn the Google UX Design Professional Certificate have completed seven courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in UX design. They can complete the design process from beginning to end: empathizing with users, defining their pain points, coming up with ideas for design solutions, creating wireframes and prototypes, and testing designs to get feedback.
